The chimney of the "Tessiture Bernasconi". The chimney is the only remaining artifact of the historic textile industry "Tessiture Bernasconi". This factory was built in 1872 and changed the life of the country.

What you can't miss in your holiday in Cernobbio

- Lake Como is also famous for its cuisine. Try some local specialties like the "risulti" or the "risotto al pesce persico".
- For a holiday to share on social networks walk along the paths up to the "Croce dell'Uomo". You can walk through the nature accompanied by statues and works of art drawn from the wood of our mountains.
- Cernobbio extends to the foot of Mount Bisbino (m. 1.235). From the Summit of Mount you can enjoy a breathtaking view that ranges from the Swiss Alps to Milan

And don't forget to...
